

VariQuest Tools Support Secondary Transition Programs

Use VariQuest tools to help students with special needs gain work experience and career skills by creating products to sell to schools and the community. They're safe and easy to use and will serve as great confidence-builders to help students be successful after graduation.

CASE STUDY

Building Job Skills & Confidence with CBVAT & VariQuest

Special-education students in the Osseo, Minnesota, Area School District's CBVAT (Community-Based Vocational Assessment and Training) program use the full suite of VariQuest Visual Learning Tools to design, create, sell, deliver and advertise all kinds of products to area teachers and community members.

“ People are impressed when they see what our students can make - every month we get more requests. Our products have a sticker or a stamp on the back that says, ‘Created by CBVAT students.’ Who doesn’t love supporting that? ”

– Terry Toops, CBVAT Teacher

“ It’s wonderful to see what they can create and the pride they take in their work. ”
– Bev Rath, CBVAT Teacher

Learn more about how Osseo’s CBVAT business is run by scanning this QR code with your phone or by visiting www.variquest.com/osseo

Carl D. Perkins Grant Alignment

<p>Career and Technical Education</p> <p>Federal Guideline: Funds may be used to support career and technical education that prepares students both for postsecondary education and the careers of their choice. Funds may be used for activities that support entrepreneur education and training.</p> <p>Alignment: VariQuest Visual Learning Tools are used to develop entrepreneurial programs such as student-run school stores where products like banners, decals, bumper stickers and award plaques are created and sold for profit, increasing students' understanding of financial management and gaining practical business knowledge.</p>	<p>Provide Access to Career & Technical Education to Special Populations</p> <p>Federal Guideline: Funds may be used to ensure access to career and technical education for special populations, including students with disabilities.</p> <p>Alignment: VariQuest Visual Learning Tools can help Secondary Transitions Programs provide workplace readiness skills to students with developmental disabilities. Students use the tools to create and sell customized materials such as posters, bulletin board cutouts and greeting cards for district teaching staff.</p> <p>VariQuest Visual Learning Tools can also be used to create manipulatives and enlarged worksheets for students with visual impairment.</p>	<p>Professional Development</p> <p>Federal Guideline: Funds may be used to provide professional development and technical assistance for teachers, counselors, and administrators.</p> <p>Alignment: VariQuest Visual Learning Tools are used to create materials like event posters, enlarged worksheets and attendance plaques for district professional development workshops and meetings.</p>
<p>Integrate Technology</p> <p>Federal Guideline: Funds may be used to develop, improve, or expand the use of technology in the career & technology program.</p> <p>Alignment: VariQuest Visual Learning Tools are easy to use for students of all abilities, fostering technical skills and digital media knowledge while providing real-life work experience.</p>	<p>Academics-Enriching Equipment</p> <p>Federal Guideline: Funds may be used to lease, purchase, upgrade, or adapt equipment (including instructional aids and publications) designed to strengthen and support academic and technical skill achievement</p> <p>Alignment: VariQuest Visual Learning Tools can be used to create visual instructional aids like graphic organizers, anchor charts, rubrics and mind-maps that help improve academic results for students of all abilities.</p>
